| 18          |                               |                              | 66,860                      |
| 19          |                               |                              | 67,920                      |
| 20          |                               |                              | 68,980                      |
| 21          |                               |                              | 70,040                      |
| 22          |                               |                              | 71,100                      |
| 23          |                               |                              | 72,160                      |
| 24          |                               |                              | 73,220                      |
| 25          |                               |                              | 74,280                      |
| 26          |                               |                              | 75,340                      |
| 27          |                               |                              | 76,400                      |
| 28          |                               |                              | 77,460                      |
| 29          |                               |                              | 78,520                      |
| 30          |                               |                              | 79,580                      |
| 31          |                               |                              | 80,640                      |
| 32          |                               |                              | 81,700                      |

## Notes:

- 1) 3.0% overall cost increase.
- 2) 3.0% increased to each cell in BA+30 and BA+ 45.
- 3) After increase in note #2, step 1 and step 32 in BA+60 were increased with the "hinge" in the middle to start to straighten the line.
