Substitute Teacher Availability

This section provides information about the availability of qualified substitute teachers and the impact of any difficulties in this area on the school's instructional program.

Our district works diligently to provide qualified substitutes in the event a teacher should be absent. Teacher qualifications are a priority. Occasionally no one is available from the substitute pool and a teacher or administrator from the school must fill in. There are currently 85 teachers in our substitute pool with full or emergency credentials. This number has decreased from 114 in the past year; however, student population has also decreased. Recruitment for qualified substitutes is ongoing.

Teacher Evaluation Process

This section provides information about the procedures and the criteria used for teacher evaluations.

The district's evaluation program for all teaching staff meets Education Code requirements and focuses on the identification of sound teaching that aligns with the California Teaching Standards. Emphasis is placed on the support and development of new teachers and continuing professional growth for veteran teachers. All probationary and temporary teachers are evaluated yearly and permanent teachers every third year. Teachers set improvement goals for the year they are evaluated and professional growth goals between evaluations. Probationary teachers receive formal observations while permanent staff have a menu of evaluative experiences to choose from. Teachers who are identified as needing improvement are placed on "Professional Improvement Status" with documentation of progress and recommendations for future status. Individuals continuing to need improvement are placed on "Intensive Assistance Status" and then "Conditional Intensive Assistance Status." The final result of unsatisfactory performance could be termination. The results of teacher evaluation are confidential between the individual teacher and district.

Each teacher is required to participate in 21 hours of staff development every year. Opportunities are provided by the district after school and during the summer. During the past three years two total work days have been set aside for staff development. Some schools have utilized early release days for students to provide staff development for teachers at those sites.

This table displays, in units of full-time equivalents (FTE), the number of academic counselors and other support staff who are assigned to the school and the average number of students per academic counselor. VI. Curriculum and Instructional Materials

Quality, Currency, and Availability of Textbooks and Instructional Materials

This table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school, and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

The district sets a high priority on providing current and sufficient textbooks and instructional materials for students. Our primary goal is to provide instruction and materials that are aligned to the California Content Standards. The district textbook review and approval process considers instructional materials that are aligned to State content standards and are approved by the PUSD Board of Trustees. Students have access to a wide variety of instructional materials including texts, workbooks, lab equipment, reference resources, library and audiovisual materials. The school library and other technology resources provide students and staff with powerful tools for learning and accessing information.

Annually the district surveys availability and adequacy of textbooks and science laboratory materials. Sufficient standards-aligned core textbooks are provided for each student on a one-to-one basis. Adequate materials support English language learners. District-adopted materials are current and consistent with state adoption and curriculum framework cycles. In addition, varied supplemental programs are utilized in classrooms and intervention programs are used for academic support for struggling learners and students at risk for not passing the CA High School Exit Exam.

IX. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

XI. Instructional Planning and Scheduling

School Instruction and Leadership

This section provides information about the structure of the school's instructional program and the experience of the school's leadership team.

The overall quality of instruction and leadership at Ridgeview High School is excellent according to parent and student annual evaluations. The curriculum is appropriate for the needs of the students enrolled and is designed to allow students to make up deficient courses and credits or to allow them to return to the comprehensive high school site. The philosophy of Ridgeview High School is to develop responsible citizens with self-esteem, knowledge, confidence and ambition to be productive, contributing members of a changing global society. The administration and school are committed to "participatory management" where the entire staff is involved in all aspects of the school's operation and decision-making process.

Professional Development

This section provides information about the program for training the school's teachers and other professional staff.

In 2005/2006 the district provided a staff development program for teachers and staff through workshops offered in summer sessions, after school and on minimum days. Staff development activities were both site-based to meet school needs and district-sponsored. Teachers attended a minimum of twenty-one hours of training on standards-based instruction and strategies to improve student achievement and the core content areas that include mathematics, English language arts, science, social studies and technology. Teachers were supported in implementation of new instructional strategies through collaboration and coaching by teacher leaders and administrators at the district and site levels. Teachers were offered the opportunity to participate in AB 466 Reading/Language Arts or Mathematics to learn how to effectively use adopted programs

Administrators participated in ongoing staff development in developing effective leadership through reading educational articles/research and monthly meetings. Several administrators participated in AB 75 Administrative Leadership Training.

Minimum Days in School Year

The section provides information about the total number of days in the most recent school year that students attended school on a shortened day schedule and the reasons for the shortened day schedule.

Ridgeview High School used eight minimum days to provide staff time to complete the school's Accreditation Report in Spring, 2007. The staff worked in "focus groups" to complete the self-evaluation reports required for the site visitation in late Spring, 2007.
