School Accountability Report Card

Reported Using Data from the 2011-12 School Year

Published During 2012-13

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC webpage at <http://www.cde.ca.gov/ta/ac/sa/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

EdData Partnership Web Site

EdData is a partnership of the CDE, EdSource, and the Fiscal Crisis Management and Assistance Team (FCMAT) that provides extensive financial, demographic, and performance information about California's public kindergarten through grade twelve school districts and schools.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest webpage at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible. Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2011-12)

This section provides information about the school, its programs and its goals.

The Cedarwood Elementary School staff provides a positive environment where students feel safe and are motivated to learn. We are committed to a quality education for all students. We hold high expectations for student achievement, student behavior, and ourselves as professionals. At Cedarwood, we believe every child is capable of learning, and we provide the opportunity for all students to reach their potential. Our teachers use achievement data to continually evaluate student progress and adapt their classroom practices to meet student needs.

We provide academic interventions for students requiring additional support through Response to Intervention, a blended service model. This model allows special education, Title I, and regular education teachers to collaborate and provide the best program possible for our children. It also allows us to continually challenge students who are proficient and advanced. As a result of these efforts, we received the prestigious award of a California Distinguished School in 2006 and the California Title I Academic Achievement Award for the 2003/2004, 2004/2005 and 2005/2006 school years.

We focus on basic skills, including reading, writing, spelling, and mathematics. We believe an effective language arts program should be balanced with direct skill instruction, literature and meaningful writing. Our mathematics curriculum includes mastery of basic math facts, mathematical operations, and problem solving. We encourage strong parent and community partnerships and invite our parents, grandparents, and community members to participate in the classroom. We believe a skilled and dedicated staff, motivated students, and supportive parents are powerful components for student success!

Opportunities for Parental Involvement (School Year 2011-12)

This section provides information on how parents can become involved in school activities, including contact information pertaining to organized opportunities for parent involvement.

We offer many opportunities for parents to participate in their child's education. Our School Site Council meets the second Tuesday of every month. In addition to the elected officers, all interested parents are invited to attend the meetings. Parents and teachers work together on this council to set school goals, make decisions about budget expenditures, and plan school activities.

We also have a very active parent club (PTO) that sponsors many fund raising activities during the year. Parents, grandparents, and community members are always welcome to visit or volunteer in our classrooms. We continually encourage a strong connection between home and school.

III. School Climate

School Safety Plan (School Year 2011-12)

This section provides information about the school's comprehensive safety plan, including the dates on which the safety plan was last reviewed, updated, and discussed with faculty; as well as a brief description of the key elements of the plan.

We have a comprehensive School Safety Plan located in the office. The plan is updated each year and shared with staff and the School Site Council. The disaster preparedness plan clearly designates warning signals and emergency actions for all emergencies. Staff and students practice emergency drills throughout the school year.

Classroom discipline and effective classroom management are primary focus areas for Cedarwood staff. We believe that learning is optimized in an atmosphere where students are well behaved, attentive, and responsible for their actions. We accomplish this goal by teaching weekly lessons targeting positive expectations. The lesson for the week is introduced school wide at a Monday Morning Assembly. A clearly defined student behavior policy and a parent compact are sent home the first week of school. We hold high expectations for students' behavior at Cedarwood, as evidenced by our low number of suspensions.

Cedarwood Elementary is located on one of the most beautiful school sites in Northern California. Clusters of classrooms, connected by outdoor patios, are nestled beneath many cedar and pine trees. The school opened in 1997. The multipurpose room was completed in July 2001. The library media center, which opened in August 2002, includes a computer lab and a community room. Our Cedarwood Children's Center preschool program began in the fall of 2002.

Our custodial staff takes pride in maintaining a clean school environment. Major school projects are completed during the summer months. Students, staff, parents, and community members help maintain the beautiful appearance of the school. The Cedarwood campus provides a park like setting frequented by many students and neighbors when school is not in session.

VII. Curriculum and Instructional Materials

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2012-13)

This section describes whether the textbooks and instructional materials used at the school are from the most recent adoption; whether there are sufficient textbooks and instruction materials for each student; and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

Year and month in which data were collected: September, 2012

The district sets a high priority on providing current and sufficient textbooks and instructional materials for students. In this regard, our primary goal is to provide instruction and materials that are aligned to the California Content Standards. The district textbook review and approval process considers instructional materials that have been approved by the State Board of Education (SBE) for textbook adoption. Students have access to a wide variety of instructional materials including texts, workbooks, math and science equipment, reference resources, library and audiovisual materials. The school library and other technology resources provide students and staff with additional tools for learning and accessing information.

Annually the district surveys availability and adequacy of textbooks and science laboratory materials. Sufficient standards-aligned core textbooks are provided for each student on a one-to-one basis. Adequate materials support English language learners. District-adopted materials are consistent with state requirements. In addition various supplemental programs are utilized in classrooms and a number of intervention programs are used for academic support for struggling learners.

IX. Student Performance

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- **California Standards Tests (CSTs)**, which include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven.
- **California Modified Assessment (CMA)**, an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- **California Alternate Performance Assessment (CAPA)**, includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, see the CDE STAR Results Web site at <http://star.cde.ca.gov>.

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. For detailed information about the API, see the CDE API webpage at <http://www.cde.ca.gov/ta/ac/ap/>.

Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The **statewide API rank** ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state.

The **similar schools API rank** reflects how a school compares to 100 statistically matched “similar schools.” A similar schools rank of 1 means that the school’s academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school’s academic performance is better than at least 90 of the 100 similar schools.

API Rank	2009	2010	2011

Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) webpage at <http://www.cde.ca.gov/ta/ac/ay/>.

Federal Intervention Program (School Year 2012-13)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations webpage: <http://www.cde.ca.gov/ta/ac/ay/tidetermine.asp>.

XI. Instructional Planning and Scheduling

Professional Development

This section provides information on the number of days provided for professional development and continuous professional growth in the most recent three year period. Questions that may be answered include:

- What are the primary/major areas of focus for staff development and specifically how were they selected? For example, were student achievement data used to determine the need for professional development in reading instruction?
- What are the methods by which professional development is delivered (e.g., after school workshops, conference attendance, individual mentoring, etc.)?
- How are teachers supported during implementation (e.g., through in-class coaching, teacher-principal meetings, student performance, and data reporting, etc.)?

Professional development opportunities were available through Paradise Unified School District, Butte County Office of Education and other providers. Content consisted of a variety of subject matter including English language arts, math, effective teaching strategies, addressing the needs of students with special needs, increasing student achievement, enriching the school environment and character education.
