To: Board of Directors

Paradise Unified School District

From: Kevin Phillips

**District Manager** 

Paradise Irrigation District

## **Dear Directors**

As the community of Paradise continues to recover and rebuild following the devastation left by the Camp Fire, Paradise Irrigation District recognizes concerns regarding water quality in the public drinking water system. PID also recognizes the responsibility we have in providing safe drinking water to the users of this system. Therefore, PID staff has, and will continue to recover, repair and monitor water quality throughout our drinking water system.

In effort to deliver safe drinking water to the community, PID implemented several projects intended to achieve this goal. One such project is an extensive water quality sampling project. This project includes water quality analysis for over 50 volatile organic chemicals that may cause contamination to water transmission and distribution mains, water service laterals and other appurtenances to our system.

It is a priority for PID to maintain vigilance regarding the quality of the water in our distribution system. This has long been a practice of PID and is now intensified by ongoing water quality monitoring for VOC contamination in addition to other water quality sampling requirements.

Water service laterals for Paradise High School, Paradise Intermediate School and Ponderosa Elementary School had all previously been sampled by PID and subsequent to that process, PUSD received letters lifting the Water Quality Advisory at these locations. Ongoing water quality sampling of water mains, surrounding and leading to water mains that provide water to 6593 Pentz Road, 5657 Recreation Drive and 5911 Maxwell Drive were recently completed.

Understanding your role as board members and your responsibility to the community, especially our students, you can be confident that the water delivered to the service connections and the above parcels remains potable. Thank you for your diligence and service to our school district, staff, community and students.

Sincerely,

Kevin Phillips

District Manager

Paradise Irrigation District

Our water. Our future.
