PARADISE UNIFIED SCHOOL DISTRICT  
2014-2015 NEGOTIATIONS PHILOSOPHY

We are committed to having a positive bargaining relationship and we believe we can find a balance between the needs of our employees and the operational needs of the District. Because of this commitment, we believe it is important to state how the District will approach negotiations issues. We believe it is very important to have a positive dialogue with our employee organizations as we negotiate employee contracts. We value the relationship that we have with our employees and appreciate the contributions that employees make on a daily basis. We commit ourselves to the following negotiations principles and practices:

Emphasis on Student Learning and Student Success
Our goal and responsibility is to provide our students with the strongest educational program possible. We will evaluate each negotiations issue by asking ourselves the question: “How will this issue affect the educational services for our students?” Contract language accepted today can affect the educational program for generations to come and we believe we have the responsibility to ensure that all contract language will serve the students in a positive manner well into the future.

Fiscal Responsibility
We believe it is our responsibility to spend the funds entrusted to us to obtain the greatest educational opportunities for our youth. We must also protect and preserve the fiscal health of the District while maintaining a prudent reserve. To achieve these ends and to maintain the public trust, we will engage in clear, honest and open dialogue with all stakeholders in a professional, cooperative and problem solving approach. We are committed to budget and fiscal transparency in all areas.

Long Term Stability
We believe the long term stability of quality programs, leadership, teachers and classified staff is essential to the long-term success of our students and District.

Principled Relationship with Employee Bargaining Units
We believe in principled relationships and meaningful negotiations with employee groups that advance student achievement, employee interests and the District’s core values.
