2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Paradise Ridge Elementary School is a dynamic place of learning, serving families in our community, for students in Transitional Kindergarten through sixth grades. The talented staff members bring many collective years of experience to bear, and their level of commitment ensures that our students receive the best elementary education possible. The goal of the Paradise Ridge Elementary staff is to assist each student in reaching his/her maximum academic, social, physical, and emotional potential. It is important to educate the whole child. To this end, we are dedicated to helping students master the rigorous California Common Core State Standards of Education as well as the equally important life skills (qualities such as citizenship, teamwork, responsibility, and respect). We use data to drive our curriculum and instruction and to identify what each student's needs may be.

We develop relationships with children to celebrate their strengths. We also use a Positive Behavior Intervention System to encourage students to make positive choices and be productive citizens in our community. At Paradise Ridge Elementary, we believe that all students can learn. The staff at Paradise Ridge takes this responsibility seriously and will do everything within our power to help your child reach his/her potential. Intervention is provided through our blended services model. This model allows special education, Title I, and regular education teachers to collaborate and provide the best programs possible for all children. We believe that we learn as a community and through each teacher's expertise. Our teachers support this belief through collaborative efforts. Paradise Ridge Elementary teachers are experts in their fields and meet weekly to review students' successes and needs.

We value parent involvement and believe that student success can best be reached when the school is working in conjunction with parents. We look forward to working with all community members during the school year.

Our School Mission Statement: Paradise Ridge Elementary School will strive to provide a purposeful, productive, and well-balanced curriculum that meets the state standards while encouraging an appreciation for the arts and sciences. We will work in partnership with the school community to provide a safe and supportive environment in which high expectations are established. Our aim is for students to acquire the skills and knowledge necessary to become effective communicators, critical thinkers, and problem solvers who are motivated to engage in lifelong learning and empowered to achieve personal and educational goals. We will encourage our students to be compassionate, kind citizens who use their skills and knowledge in ethical ways to help make the world a better place. We will continually evaluate our curriculum, learning resources, and facilities to ensure a learning environment that supports this mission.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The district sets a high priority on providing current and sufficient textbooks and instructional materials for students. In this regard, our primary goal is to provide instruction and materials that are aligned to the California State Common Core Standards. The district textbook review and approval process consider instructional materials that have been approved by the State Board of Education (SBE) for textbook adoption. Students have access to a wide variety of instructional materials including texts, workbooks, math and science equipment, reference resources, library, and audiovisual materials. The school library and other technology resources provide students and staff with additional tools for learning and accessing information. Annually the district surveys availability and adequacy of textbooks and science laboratory materials. Sufficient standards-aligned core textbooks are provided for each student on a one-to-one basis. Adequate materials support English language learners. District-adopted materials are consistent with state requirements. In addition, various supplemental programs are utilized in classrooms and a number of intervention programs are used for academic support for struggling learners.

School Facility Conditions and Planned Improvements

Due to the passing of the School bond on November 7, 2018 and the Camp Fire on November 8, 2018 There are many new facilities and upgrades happening in Paradise Unified School District (PUSD). On January 18, 2022 PUSD approved the Facilities Project Priorities List where every site will have improvements. Paradise Ridge Elementary School has been completely modernized since the campfire. The new MPR/Office building was a ground up rebuild, and the existing were taken down to the studs and all plumbing, electrical, low voltage, gas piping, HVAC system, etc. All parking lots, concrete and fields are new as well. Our school recently went through a major construction and renovation project with the building of a new multipurpose room while the classrooms and common areas were thoroughly renovated. Additionally, new fencing was installed to create a closed campus with during the school day entry only possible through our front school office. The lawn areas and sprinkler systems were totally refurbished. The only addition planned for our campus is the installation of a slide and monkey bars on our grades 2-6 playground.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	43	N/A	36	N/A	47
Mathematics (grades 3-8 and 11)	N/A	40	N/A	28	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents are an invaluable part of any educational partnership and we welcome and encourage parent involvement on many different levels. Parents may play an active role in school decision-making through their participation in our School Site Council or participate in PREP (Paradise Ridge Elementary Partnership) to support the educational experience for kids. One of the responsibilities of the School Site Council is to implement the School Site Strategic Plan. It conducts an annual review of the plan and develops, recommends and approves or disapproves any modifications or improvements necessary to reflect changing improvement needs and priorities. The Site Council organization develops and makes recommendations about the Title I budget. Disbursement of funds is done following a written or oral presentation request. This council will also carry out all other duties and responsibilities assigned to it in the California Education Code.

The Paradise Ridge Elementary Partnership (PREP) is a parent volunteer organization. All parents, family, members and/or legal guardians of students who attend Paradise Ridge Elementary School and all current faculty and staff of Paradise Ridge Elementary School are members of the organization. The primary function of PREP is to enhance and support the educational experience of our children, develop a closer connection between school and home by encouraging parent involvement, and to improve the culture at Paradise Ridge through volunteer and fundraising support. Such efforts may include but are not limited to fundraising, classroom support, social functions, teacher support, and other volunteer efforts.

C. Engagement

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	3.08	7.38	2.45
Expulsions	0.00	0.21	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. 2022-23 School Safety Plan

Our school safety plan exists to insure the health and safety of all students and staff members all year long. The plan is reviewed annually by all staff and presented to our parent council and school board each year for approval. Students are supervised by an adult staff member before, during and after school. Supervision is provided on the playground one-half hour before school begins and in our loading areas for 20 minutes after school. Adult crossing guards or yard duty assist each child being picked up or dropped off safely to and from their vehicles. Students are taught school safety practices and drills are held on a regular basis to emphasize safety in the event of an emergency. Fire, earthquake, and lockdown drills are practiced according to California Ed Code.
